

# Respiratory Protection

## 3M™ Filters DT-Series

For effective protection against a range of particulates, gases and vapours or combination hazards, use 3M™ Filters DT-Series.

Suitable for use with certain 3M™ half and full-face tight-fitting respirators in negative-pressure mode as well as 3M™ Powered Air Respirator System PF-600E+ Series.

- Includes specifications to provide protection against particulate hazards, gas & vapour hazards or a combination of both
- Features a DIN40 mm threaded connection
- Please note DT-Series filters were previously known as Pro2000 Filters

## 3M™ Filters PV Series for use with PV-300 Series

3M™ Particulate Filter PV-1251E provides protection against particles such as solid and liquid particles, toxic and radioactive particles, microorganisms (e.g. bacteria and viruses) and enzymes. It is designed for use with 3M™ Powered Air Respirator System PV-300E and 3M™ HF-350 Series half face respirator in negative pressure mode

- Provides protection against particulates such as solid and liquid particles, toxic and radioactive particles, microorganisms (e.g. bacteria and viruses)
- Suitable for use with 3M™ Powered Air Respirator System PV-300E (formerly known as 3M™ Scott™ Phantom Vision)
- Suitable for use with 3M™ HF-350 Series half face respirator in negative pressure mode (formerly known as 3M™ Scott™ AVIVA 50)
